

Bronze Star Medal

Date
before 1974

Primary Maker
Bailey, Banks, and Biddle

Medium
metal, ribbon

Description

(a) A bronze five-pointed star medal displays a smaller raised star in the center. The small star is set on a raised 10-pointed figure, from which rays extend to the points of the outer star. It is suspended by a rectangular metal loop with rounded corners that is attached to a vertically-striped red, white, and blue ribbon. A bronze "v" pin is attached to the blue stripe in the center. (b) A horizontal metal pin displays a red ribbon that has two vertical white lines bordering a vertical blue line in the center. (c) A horizontal red metal pin displays vertical white and blue stripes in the center. (d) Golden borders decorate the edges of a black box. The interior of the lid and the bottom portion are lined with golden fabric.
